Good Morning,

Just following up on our conversation to remind you that LCWD has yet to receive a written response to our correspondence dated 6-23-21 attached.

Note that the project engineer did conducted a flow test and provided the District with those results. However, that falls short of any answering any of the attached questions, concerns and requests.

Please reach out if you need any further assistance in trying to coordinate this. LCWD cannot formally support, endorse or provide any opinion on the validity of this project and our ability to extend the system until this information is received.

Thanks,

John V. Scenna, Superintendent

Lynnfield Center Water District

83 Phillips Road, Lynnfield, MA 01940
