- A. Upon Completion, the contractor shall insure proper removal of all construction debris, surplus materials, empty containers and wash water, and shall leave the site in a condition acceptable to the owner. The courts are to be left secure so as to prevent vandalism.

7.0 LIMITATIONS

- A. All NOVACRYLIC coatings are waterbourne and cannot cure in cold temperatures or when subject to moisture. Care should be taken not to apply the coatings when rain is forecast or sudden temperature drop is expected. Climate conditions such as very cool evenings and high dew point dictate that the work should be completed early in the day so the coatings can be exposed to enough warm sunlight to form a film before sunset. The opposite applies during times of high heat, low humidity and drying breezes: under these conditions work very early in the morning or late in the day. If the product seems to be drying too fast in hot weather, mist the pavement with water to make the application easier. Care must be taken to allow each application to dry thoroughly prior to recoating.

8.0 GENERAL

The contractor should be knowledgeable about and have had experience in dealing with slope, drainage, base materials, type of surfaces, lighting, fencing, nets, net posts, maintenance, resurfacing and acceptable tolerances.

9.0 CONDITIONS FOR CONSTRUCTION

A. Guidelines for Site Preparation.

a. Site Stripping and Clearance.

- Unless otherwise specified, grass, topsoil and other unsuitable materials shall be removed from the court area and removed from the site. All trees and stumps are to be similarly removed, such areas backfilled and graded.

b. Earthworks.

- Where it is necessary to raise the levels of all or part of the court area, such filled material should be free of organic and/or unsuitable material and shall be placed in layers not exceeding 250mm in depth. Each layer will be suitably compacted prior to the laying of the next layer, to a minimum Standard of 95% standard compaction.
- Where the natural soil at the bottom of the sub-base course is stable, as evidenced by stability under construction equipment, hand auger or other exploration, base course materials can be placed on this soil. Soft clay areas can be stabilized by appropriate civil engineering techniques. The use of geotextile membranes may be considered for larger areas.

c. Inspection and Testing.

- Compliance with these guidelines can best be determined by inspection and tested by a qualified engineer or technician. Responsibility for the cost of such inspection should be agreed upon in advance between the owner and the contractor.

d. Finished Surface Levels.

- The proposed court levels should be detailed in the Scope of Works.
- The contractor should advise the client in writing if any alteration to such levels is required.

Awarding Authority: Town of Lynnfield DPW
Contract Number: 2023-04-01 **City/Town:** LYNNFIELD
Description of Work: The Town is looking to renovate four (4) existing tennis courts and add a 5th court
Job Location: 275 Essex Street

Information about Prevailing Wage Schedules for Awarding Authorities and Contractors

- The wage rates will remain in effect for the duration of the project, except in the case of multi-year public construction projects. For construction projects lasting longer than one year, awarding authorities must request an updated wage schedule no later than two weeks before the anniversary of the date the contract was executed by the awarding authority and the general contractor. For multi-year CM AT RISK projects, the awarding authority must request an annual update no later than two weeks before the anniversary date, determined as the earlier of: (a) the execution date of the GMP Amendment, or (b) the execution date of the first amendment to permit procurement of construction services. The annual update requirement is not applicable to 27F "rental of equipment" contracts. **The updated wage schedule must be provided to all contractors, including general and sub-contractors, working on the construction project.**
- This wage schedule applies only to the specific project referenced at the top of this page and uniquely identified by the "Wage Request Number" on all pages of this schedule.
- An Awarding Authority must request an updated wage schedule if it has not opened bids or selected a contractor within 90 days of the date of issuance of the wage schedule. For CM AT RISK projects (bid pursuant to G.L. c.149A), the earlier of: (a) the execution date of the GMP Amendment, or (b) the bid for the first construction scope of work must be within 90-days of the wage schedule issuance date.
- The wage schedule shall be incorporated in any advertisement or call for bids for the project as required by M.G.L. c. 149, § 27. The wage schedule shall be made a part of the contract awarded for the project. The wage schedule must be posted in a conspicuous place at the work site for the life of the project in accordance with M.G.L. c. 149 § 27. The wages listed on the wage schedule must be paid to employees performing construction work on the project whether they are employed by the prime contractor, a filed sub-bidder, or a sub-contractor.
- Apprentices working on the project are required to be registered with the Massachusetts Division of Apprentice Standards (DAS). Apprentices must keep their apprentice identification card on their persons during all work hours on the project. An apprentice registered with DAS may be paid the lower apprentice wage rate at the applicable step as provided on the prevailing wage schedule. **Any apprentice not registered with DAS regardless of whether they are registered with another federal, state, local, or private agency must be paid the journeyworker's rate.**
- Every contractor or subcontractor working on the construction project must submit weekly payroll reports and a Statement of Compliance directly to the awarding authority by mail or email and keep them on file for three years. Each weekly payroll report must contain: the employee's name, address, occupational classification, hours worked, and wages paid. Do not submit weekly payroll reports to DLS. For a sample payroll reporting form go to <http://www.mass.gov/dols/pw>.
- Contractors with questions about the wage rates or classifications included on the wage schedule have an affirmative obligation to inquire with DLS at (617) 626-6953.
- Contractors must obtain the wage schedules from awarding authorities. Failure of a contractor or subcontractor to pay the prevailing wage rates listed on the wage schedule to all employees who perform construction work on the project is a violation of the law and subjects the contractor or subcontractor to civil and criminal penalties.
- Employees not receiving the prevailing wage rate set forth on the wage schedule may file a complaint with the Fair Labor Division of the office of the Attorney General at (617) 727-3465.
